

GGEZ (25)

Description

Write Up

This is straightforward. If we open the image, we see:

```
<?xml version="1.0" standalone="no"?><!-- Generator: Gravit.io --><svg xmlns="http://www.w3.org/2000/svg" version="1.1" baseProfile="full"><rect width="100%" height="100%" fill="white"/><path d="M0 0 L1000 1000" stroke="black" stroke-width="2px"/></svg>
```

We can see that there's a big white rectangle hiding the path below it. If you remove the dom (for example with Chrome Dev Tool), you will get the flag: `COMPFEST9{too_ez_fore_me}`
